

LR11T

Inspection Rewinder

- High speed rewriter
- Bi-directional
- Short web-path

LR11T is a compact and inexpensive table top unwinding/rewinding system that allows clients to achieve flexibility and efficiency in their roll inspection process.

The LR11T is a two-way tabletop rewriter with web tension control for fast rewinding of labels.

The machine is available as a simple rewriter with no inspection and as an inspection rewriter with missing label and missing matrix detection.

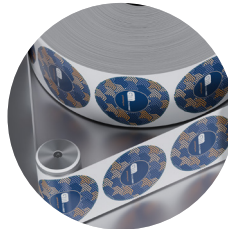

The inspection option is adapted to both opaque and transparent labels on a transparent liner.

Operation and settings are controlled on a touch screen in the local language.

EASY TO OPERATE

Touch screen and control buttons.

HIGH QUALITY FINISHING

The LR11T table ensures perfect rolls very time

MODEL	LR11T
